

Book Performance Report 2017

April 2018

Dear André Dorsman,

This report provides you with an overview of how your eBook performed on SpringerLink in 2017. We would also like to share some tips and services for you.

You might be familiar with Bookmetrix, a platform that compiles performance metrics for your books/chapters. Last year we **connected Bookmetrix to your MySpringer account**. While this report shows static, calendar-year data, your account shows you *current* SpringerLink usage data as well as the number of citations, social media mentions and book reviews.

Clicking on one of these metrics takes you to the Bookmetrix page for your book where you can find **benchmarks: how your book compares to the average of other titles published in the same year and discipline**.

Just a reminder, you can access MySpringer [here](#).

Best wishes,

Your Springer Marketing team

As you know, reviews can be an excellent way to boost a book's visibility in the relevant communities and raise reader interest!

Tips and services

Engage on social media – talk about your book

Are you an active social media user? Remember to talk about your book and share the link to your book with your community. What inspired you to write it? How many downloads did it get last year? Posts about your book can reach potential new readers, and help get it cited and get more reviews.

Open access books and funding options

We publish open access books in science, technology, medicine, the humanities and social sciences. Publishing an open access book with us leads to seven times more downloads, 50% more citations and ten times more online mentions on average than publishing a book through the non-open access route. We offer a variety of book types including monographs, edited volumes, proceedings, SpringerBriefs and chapters. In addition to the electronic version, customers can order a printed edition at a reduced rate. Authors retain copyright. The default Creative Commons Attribution (CC BY) 4.0 International License facilitates free re-use and sharing.
